Re: USA v. Damon Toey - 08cr10225 WGY

Date: October 7, 2008

On September 23, 2008, this officer filed a Petition for Action on Conditions of Pretrial Release, to notify the Court that the defendant, Damon Toey, failed to remove all computers from his residence. In light thereof, Your Honor set a violation hearing for October 17, 2008. This officer has just been notified by the supervising officer in the Eastern District of Virginia, that a visit to the defendant's home yesterday afternoon, revealed that the computers have finally been removed from the residence and are being held in a storage facility somewhere outside of the home.
